Loan of Books
for public
filled in

, or
be
Library

request form AD-243, if possible (obtainable from your Bureau Supply Room); or telephone or send in an informal note. Loan period is 2-4 weeks (note due date on routing slip). Correspondence and books under 4 pounds may be mailed both ways by Government frank.

Loan of Periodicals: Regular routing lists are maintained for many periodicals in the fields of agriculture and forest products. Ask for a List of Periodicals Currently Received. Single issues are also loaned upon request.

Reference Service: Questions arising in your work which require search in publications will be answered. If Branch library facilities are not adequate, we will consult other libraries, or forward the request to Washington.

AGRICULTURE
LIBRARY

Photoprint Service: If you need a periodical article of not more than 50 pages, fill in form AD-245 as completely as possible and send it to Madison Branch. We will complete the form and forward it to the Washington Library, where a photoprint will be sent you, in lieu of loan, at the discretion of the librarian.

Bibliographical Service: If you need a list of references on a specific phase of your work, we will compile one, or, if desirable, will forward the request to the Main Library in Washington.

Subject Packets: The Library assembles groups of pamphlets and bulletins on subjects of professional interest to readers and loans them, as a packet, for 1 month. To receive one, send in a request stating your field of interest.

Traveling Libraries: These are groups of books, usually on a variety of subjects, which are sent on a circuit, to be retained 6 weeks in each office and finally returned to the Library. If you would like to be included on one of these circuits, let the Library know.

Bibliography of Agriculture: This is a monthly listing, by subject, of all new agricultural publications received in the U.S.D.A. Library at Washington. Let us know if you would like to check it regularly.

Library Newsletter, issued bi-monthly by Madison Branch, reviews books newly acquired and lists selected new bulletins. It is prepared for all U.S.D.A. employees in this region. If you are not seeing it regularly, write your Regional Office mailing room or the Library.

YOUR LIBRARY IS DESIGNED TO PROVIDE THE
KNOWLEDGE THAT WILL HELP YOU DO YOUR JOB WELL
